

Australasian Hyperbaric & Diving Medicine Research Trust

2010 ROUND 2 RESEARCH GRANTS

In January 2009 the Australasian Hyperbaric and Diving Medicine Research Trust (AH+DMRT) awarded two Round 1 Research Grants. Refer www.hyperbaricresearch.com.au.

Call for Abstracts

AH+DMRT is pleased to announce a call for Round 2 Abstracts in support of applications for research funding in 2010. AH+DMRT supports research into any area that is related to hyperbaric medicine and diving medicine. Applications in areas of research that may lend evidence to efficacy for medical interventions are encouraged. Applications in areas such as oxygen delivery systems, environmental control systems, fire deluge systems and patient monitoring systems may also be considered.

Grants available

The AH+DMRT has available \$30,000 to award for research grants in 2010. Requested funding does not need to match available award monies. More than one grant application may be funded.

NOTE: A condition for all grants is that the grantee (applicant) must either be a Deductible Gift Recipient (approved by the Australian Tax Office to receive tax deductible donations) in their own right or be in a position to have the grant accepted through an institution or organization that is a Deductible Gift Recipient (e.g. into a suitable fund within a public hospital). In the latter instance, all applicants are advised to establish that the relevant institution will be eligible to accept any grant money on their behalf.

Process / Timetable

Abstracts are to be submitted by the closing date, which is 1700hrs 11th September 2009. Submitted abstracts will be reviewed by the AH+DMRT Research Advisory Panel to assess merit and form recommendations for the Trustees. Applicants will be advised of the review outcome by 16th October 2009. Applicants of successful abstracts will be invited to prepare and submit a fully detailed and costed grant proposal to the Trustees by 13th November 2009.

Abstract and Proposal Guidelines are available on the AH+DMRT website.

Grant proposals will be assessed by the Research Advisory Panel. The successful applicant(s) will be notified on or before 18th December 2009.

Release of funds will be conditional upon receipt by the Trustees of copies of appropriate Ethics and other approvals where required.

Tenure

The tenure of the research grants is for one year from the date grant funds are released. Funds not used at the completion of that time are to be returned to the AH+DMRT.

Submission of Abstracts

Abstracts must be received by AH+DMRT by the advertised closing date. Abstracts may be submitted by email or by paper copy. If submitting by email, they must be submitted as an attachment, which is to be a Word document in a single file.

Applications are to be sent to –

Postal address :

Professor Zee Upton,
Chair, Research Advisory Panel,
Australasian Hyperbaric and Diving Medicine Research Trust,
PO Box 648,
Mooloolaba,
QLD 4557
AUSTRALIA

Email address: info@hyperbaricresearch.com.au

Publication of successful applications

The AH+DMRT may publish and release details of the successful applications to the media, general public and research community in future publications.

Reports

Grantees are required to provide an interim report on the research 6 months after commencing their study, and a final report on completion of the study. Final reports will be published on the AH+DMRT website. Grantees may also publish reports independently. Independent publication must acknowledge the funding support from the AH+DMRT.
