

HTNA 30th Annual Scientific Meeting on Diving and Hyperbaric Medicine The Henry Jones Art Hotel, Hobart — September 7th to 9th 2022

Going To The Extreme

PRELIMINARY PROGRAM

KEYNOTE SPEAKERS

Dr Richard Harris SC, OAM

Mr Chris Lemons

In June 2018, a few days after a boy's football team went missing in Thailand's fourth longest cave system, Dr Richard Harris, an Anaesthetist from Adelaide, applied his rare combination of cave-diving and critical care skills in the resulting rescue mission.

Established relationships in the international cave rescue community, allowed site British experts to specifically request his expertise to assist with the extraction of the boys and their coach.

In 2018 the Association of Anaesthetists of Great Britain and Ireland, awarded 'Harry' the Pask Award (his most cherished award!), in recognition of his bravery during the cave rescue of the Wild Boar football team. The Edgar Pask citation is given to those who've rendered distinguished service, either with gallantry in the performance of their clinical duties, in a single meritorious act, or consistently and faithfully over a long period.

Whilst he still practices medicine, life is very different now for Harry as he pursues his interest in documentary film making.

Chris has been a commercial diver for over 14 years, and currently specialises in deep sea Saturation diving, operating almost exclusively in the Oil and Gas Industry. This highly specialised form of diving involves living in the claustrophobic confines of a decompression chamber for up to 28 days at a time, commuting daily to the sea bed in a diving bell, and working at depths of up to 900 feet for 6 hours at a time.

In September of 2012, a freak failure of the dynamic positioning system of the vessel he was working under, resulted in the umbilical which provides him with breathing gas, light and heat being severed completely. He was left on the seabed, in complete darkness 300 feet below the surface, with only the 5 minutes of breathing gas he carried in the emergency tanks on his back, and no way to protect himself from the freezing temperatures.

Chris was resigned to ending his days alone in the dark water knowing every breath was potentially his last. It took his heroic rescuers over 40 minutes to come back and fetch him, and his miraculous survival story has baffled experts ever since.

His extraordinary story was subsequently immortalised in the hit Netflix/BBC documentary 'Last Breath,' whilst Chris continues to dive to this day.

Chris was born in Edinburgh, raised in Cambridge, and now lives in the Scottish Highlands with his wife and daughter.

ADDITIONAL INVITED SPEAKERS

Prof David Smart, AM

Prof Michael Bennett, AM

Prof David Cooper

Dr Juan Carlos Ascencio-Lane

Dr Alicia Tucker

Dr Elizabeth Elliott

Dr Darren Meehan

Ms Joanna Smart

Tom Workman

Keep an eye on the HTNA website as we update the program with more speakers as the program evolves!

PRELIMINARY PROGRAM

Wednesday September 7th 2022

DAY ONE MORNING SESSION	
0800—0900	Conference Registration
0900—1000	HTNA/ANZHMG Annual General Meeting
1000—1030	Morning Tea
1000—1130	Conference Registration
1130—1230	Lunch
DAY ONE AFTERNOON SESSION	
1230—1300	Opening Address—HTNA President
1300—1500	Invited speakers presentations
1500—1530	Afternoon Tea
1530—1730	Invited speakers presentations
1830—2030	Molnlycke Cocktail Party — Henry Jones—IXL Atrium

Thursday September 8th 2022

DAY TWO MORNING SESSION	
0800—0830	Conference Registration
0830—10015	Invited & guest speakers presentations
1015—1045	Morning Tea
1045—1200	Invited speaker presentation
1200—1300	Lunch
DAY TWO AFTERNOON SESSION	
1300—1430	Invited speaker presentation
1430—1500	Afternoon Tea
1500—1630	Guest speakers presentations
1610—1700	Keynote speaker presentation
1830—2030	ConvaTec Murder Mystery — The WaterLine Lounge

APPROVED
